

Destinations

Mutual fund strategies

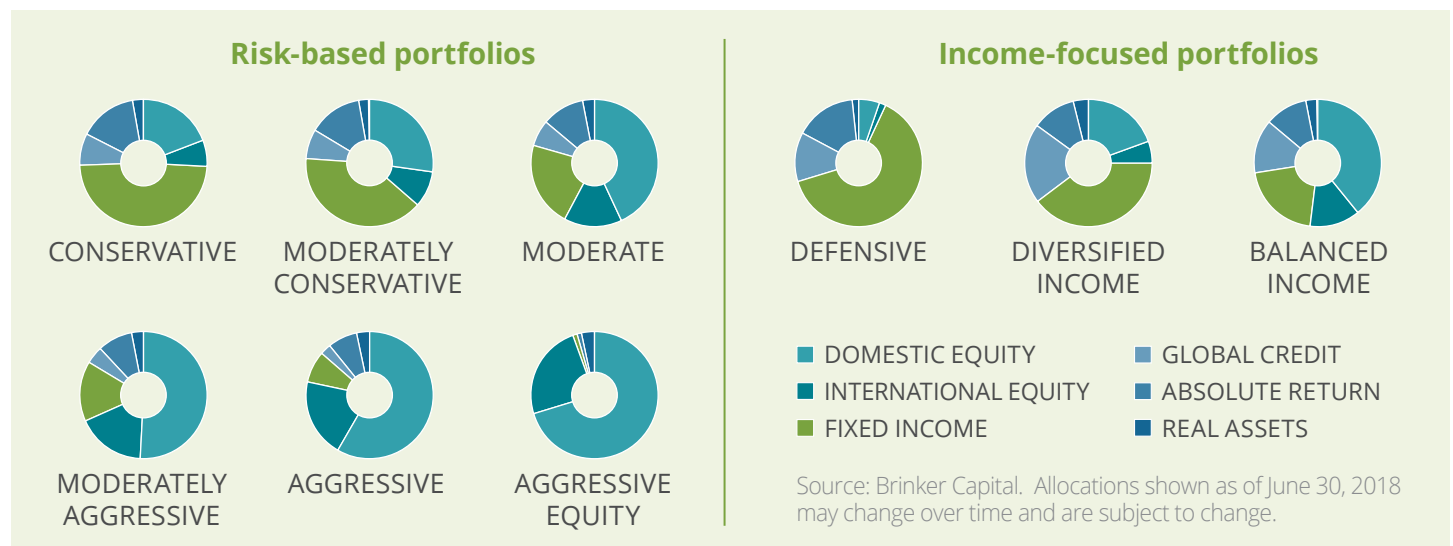

Destinations is a multi-asset class solution, featuring a range of dynamic risk-based and income-focused portfolios.

About Destinations

- Destinations features multi-asset class portfolios to meet a range of investor needs.
- Portfolios are comprised from a series of ten proprietary mutual funds constructed using third-party manager investment strategies.
- Our dynamic approach to asset allocation enables portfolio managers to remain flexible and opportunistic.

About Brinker Capital

- We adhere to a multi-asset class investment philosophy through a mix of growth, stable, and diversifying assets.
- We believe that meaningful portfolio diversification, over time, helps keep investors invested and delivers more consistent, risk-adjusted returns.
- All of our portfolios are dynamic in nature: strategic allocations with active oversight to take advantage of market opportunities.

Whatever your goals, we have a strategy to help you reach them

Portfolio objectives¹

Defensive

- Objective of absolute return and to outpace 3-month US Treasury bills by 1-3% over rolling 12-month periods
- Bias toward stable and diversifying assets but will selectively allocate toward growth assets if opportunities are favorable
- Naturally higher yield due to its emphasis on fixed income assets
- Suited for investors with a timeframe of one year

Conservative

- Wealth preservation with a conservative level of volatility
- Target of 30% equity and 70% fixed income assets
- Suitable for investors with a timeframe of at least three years

Diversified Income

- Objective of meaningful income and incremental long-term growth of capital while maintaining a conservative level of volatility
- Strategic target allocation of 30% equity and 70% fixed income
- Bias toward income-producing strategies across all asset classes
- Target yield is within the range of Treasury bills +2-4% but will vary based on market conditions
- Investors should have an investment timeframe of at least three years

Moderately Conservative

- Long-term growth of capital with a modest level of volatility
- Strategic target of 40% equity and 60% fixed income
- Suited for investors with a timeframe of at least five years

Balanced Income

- Balance of current income and long-term capital appreciation while maintaining a moderate level of volatility
- Strategic target of 55% equity and 45% fixed income assets
- Bias toward income-producing strategies across all asset classes
- Target yield is within the range of Treasury bills +1.5-3% but will vary based on market conditions
- Investors should have an investment timeframe of at least five years

Moderate

- Long-term growth of capital with moderate volatility
- Strategic target of 60% equity and 40% fixed income assets
- Investors should have an investment time horizon of at least five years

Moderately Aggressive

- Long-term capital appreciation with moderate volatility
- Strategic target of 70% equity and 30% fixed income assets
- Investors should have an investment time horizon of at least five years

Aggressive

- Maximize long-term capital appreciation with a higher level of volatility
- Strategic target of 80% equity and 20% fixed income assets
- Investors should have an investment time horizon of at least ten years

Aggressive Equity

- Maximize long-term capital appreciation with a higher level of volatility
- Fully allocated to equity assets
- Suitable for an investment time horizon of at least ten years

¹Represents the investment goals of the portfolio. There is no guarantee a portfolio will achieve its stated objectives. When investing in managed accounts and wrap accounts, there may be additional fees and expenses added onto the fees of the underlying investment products.
