Brinker Capital Wins Pensions & Investments Best Places to Work in Money Management Award

BERWYN, Pa. (Dec. 9, 2019) – Brinker Capital, a leading investment management company focused on multi-asset class investing, today announced it was named one of the Best Places to Work in Money Management for 2019 by *Pensions & Investments*.

Presented by *Pensions & Investments*, the global news source of money management, the eighth-annual survey and recognition program is dedicated to identifying and recognizing the best employers in the money management industry. This award marks the first time Brinker Capital was nominated and recognized as a Best Place to Work among managers with 100 to 499 employees.

“We’re honored to be named one of the ‘Best Places to Work in Money Management,” said Noreen D. Beaman, Chief Executive Officer of Brinker Capital. “This recognition reflects our commitment to providing benefits that meet the needs of our employees and reflect our commitment to attract, develop, and reward our greatest strength – our people.”

Brinker Capital recently upgraded its employee benefits offerings and continuously looks for new trends that are a top priority for employees and prospects looking for a well-rounded company with a strong work-life balance. Recent benefit highlights include the implementation of a fertility policy, PAWternity leave, work from home flexibility, and waiving the custodian platform fee for those employees who wish to open a Brinker Capital investment account.

“Again this year, it is clear that what makes firms great employers isn’t necessarily about money management in particular. Many firms were cited for their culture and work benefits,” said *P&I* Editor Amy B. Resnick. “Employees at these top-ranked firms most often cited their colleagues, the firm’s culture, and the benefits as the things that make it a great place to work.”

Pensions & Investments partnered with Best Companies Group, an independent research firm specializing in identifying great places to work, to conduct a two-part survey process of employers and their employees. The first part consisted of evaluating each nominated company’s workplace policies, practices, philosophy, systems, and demographics, which was worth approximately 25% of the total evaluation. The second part consisted of an employee survey to measure the employee experience, which was worth 75% of the total evaluation. The combined scores determined the top companies.
